

# BIO Scientific pty. ltd.

## Newsletter December 2018

*BioScientific aims to keep our researchers and customers updated with news from our various suppliers with our Newsletter*

**BIOSCIENTIFIC ARE CONSTANTLY SOURCING TOP QUALITY PRODUCTS – PLEASE ENQUIRE FOR THAT “HARD TO FIND” PRODUCT! Recent purchase for our clients –**

**Christmas orders and deliveries.**

**Please note that last orders for pre-Christmas delivery will be made on Dec 6 & 13 depending on supplier. Please have your order in as early as possible.**

**Christmas – New Years closing times;**

**Advising that BioScientific will be closing on December 21<sup>st</sup> at 3pm and will re-open on January 7<sup>th</sup> at 9 am.**

**If there are any issues during this time please email [sales@biosci.com.au](mailto:sales@biosci.com.au)**

**Looking forward to working with you throughout 2019 and beyond.**

# Caspase-cleaved keratin 18 in non-alcoholic steatohepatitis

## The M30 assay for detection and screening of NASH

### Non-Alcoholic Steatohepatitis (NASH)

NASH, a more progressive form of non-alcoholic fatty liver disease (NAFLD), has during the last couple of decades become the most common cause of liver disease globally and a public health problem. The number of affected patients is growing rapidly and the disease affects a considerable share of today's global population. The incidence of NAFLD worldwide is reported to be around 20–35 %, and of these around 10–30 % have NASH. Within the obese and diabetic population, the number of NAFLD and NASH patients is much higher, sometimes reported to be as high as 75–95 % and 40 % respectively.

### M30 Apoptosense® ELISA (Prod. No 10011)

The M30 Apoptosense® ELISA measures the concentration of caspase-cleaved K18 in human plasma, serum or cell culture, reflecting the level of apoptosis. The assay is based on the unique M30 antibody, which recognizes a neo-epitope of K18 formed after caspase cleavage.

# THE beadbeat

## NEW Quantum™ Pacific Blue™ MESF

Inside the depths of your flow cytometers lurks a Violet Laser, but fear NOT...

We now offer the **Quantum™ Pacific Blue™ MESF kit** (cat # 821) to ensure you are equipped to handle its *lowly* wavelengths.

# NVIGEN

Nano Vision • Life Science

## DRUG DELIVERY

Optimized drug PK and targeting

## ANTIBODY SCREENING

Antibody purification and Kd measurement

## DNA CAPTURE

## CELL SEPARATION

High yield and high purity of isolated cells

## CO - IP

Discover elusive protein interactions

### 1. Online:

Go to [www.biosci.com.au](http://www.biosci.com.au) - We accept Visa, Mastercard and American Express.

### 2. By Email:

Email our Sales Department at [sales@biosci.com.au](mailto:sales@biosci.com.au) After your order is entered, an order confirmation will be sent via email.

### 3. By Phone:

Call 1 300 246 724 (BIOSCI) Monday - Friday 8.30 am-5pm

### 4. By Fax:

Fax your Purchase Order to 02 9524 3100. After your order is entered, an order confirmation will be sent by return fax.
